

Auburn Community Acupuncture
Julie Ormonde, L.Ac.

INFORMED CONSENT TO TREATMENT

I consent to acupuncture treatments and other procedures associated with Traditional Chinese Medicine by Julie Ormonde, L.Ac. I have discussed the nature and purpose of my treatment with the above named practitioner.

I understand that the methods of treatment may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, Tui-Na (Chinese Massage), Chinese herbal medicine, and nutritional counseling.

I have been informed that acupuncture is a safe method of treatment, but that it may have some side effects, including bruising, numbness or tingling near the needling sites that may last a few days, and dizziness or fainting. Bruising is a common side effect of cupping. *Unusual* risks of acupuncture include nerve damage, spontaneous miscarriage, and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although this clinic uses sterile, disposable single-use needles, and maintains a clean and safe environment. Burns and/or scarring are a potential risk of moxibustion. I understand that while this document describes the major risks of treatment, other side effects may occur.

The herbs and nutritional supplements (which are from plant, animal, and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs include nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue.

I understand that the herbs need to be prepared and the consumed according to the instructions provided orally and in writing. The herbs may have an unpleasant smell or taste. I will immediately notify Auburn Community Acupuncture of any unanticipated or unpleasant effects associated with the consumption of herb teas.

I will notify Auburn Community Acupuncture if I am or become pregnant.

I do not expect Auburn Community Acupuncture to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the above named practitioner to exercise judgment during the course of treatment which he or she thinks at the time, based upon the facts then known, is in my best interest.

I understand the clinical, medical, and administrative staff may review my medical records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have read, or have had read to me, this consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
